

MAY BASKET

SUPPLIES

Solo Cup
Pipe Cleaner
Flowers
Greenery

DIRECTIONS

Punch two holes on opposite sides at the top of a solo cup. Insert pipe cleaner through holes and twist to secure and create a handle. With permission collect a handful of flowers and a bit of greenery. Place the greenery in the cup. This will hold your flowers in place so if it is a bit branchy it works better. Arrange the flowers into the greenery. Add water and place on a door knob or porch to share anonymously with a friend or relative.
